You know about the book here. In this article, we will pass through my list of books for the examination of civil services (Prelims). I wrote this post, keeping in mind an absolute beginner who is starting from zero. When you start Prelims preparation and read these books, please keep in mind the following points: Along with these books, get a syllabus print and read carefully. And when you start, I suggest you start with NCERT books. Read and review methodically to obtain absolute conceptual clarity. They form the basis of your knowledge that will help you immensely through all stages of the exam. Don't be afraid of the long list of books. For a beginner, a year is more than enough to cover the complete GS (preliminary and network) and optional program. On the list of books, wherever I mentioned the selective reading, it means that there is no need to read the cover of the book to cover. Go through the last five years of documents questions to understand the type of UPSC questions usually ago. It will give you a good perspective of what is important and what is not. For the same topic, do not refer to more than one material. For example, take Indiafight (1857-1947). if you read that part of the spectrum publications, there is no need to do the same again from the book of bipan chandra. read the latter to cover those parts not covered in the first. use internet widely. Let me give you some examples. the pmfias channel of youtube is an excellent resource to understand complex geography topics. Similarly, for art & culture, I watched videos of classical dances, popular dances, puppet shows on youtube so that I could better store their features. in science & tech, if you meet a term, say, blockchain technology, go to youtube and see the explaining videos. also for the environment, suppose to read on threatened species like red sanda and malabar hornbill, google them and see how they are. the visuals remain in your mind much longer. your goal must be to acquire knowledge, either through books or through the internet. if you are training, certainly read their notes. but please keep in mind that you can not only read those coaching notes and neglect these standard books. for example, take polty topic. the notes of a coaching institute will never cover the full theme, only laxmikanth does. therefore, even if it refers to the notes of coaching, you must still read laxmikanth and know it as the back of the hand. this principle applies to all subjects. for all subjects, it is necessary to overlay current affairs on it. to illustrate, in polty, apart from reading the part of static theory, it is necessary to keep an eye on current events. For example, if the govt makes a constitutional amendment to the gst, it is necessary to read both the main provisions of the amendment and the constitutional amendment procedure itself. do it for all subjects. to perform well in prelims, laIt's crucial. Without it, you will not be able to remember what you can have read. So please spend adequate time for review before the actual exam. Just because am AIR-1, it does not mean that this book list is the last word. If you have been studying some other material, that's fine, too. To succeed in this exam, the source of material is not important. What's important is you to understand the concepts, memorise the facts well and have a firm grip over the entire syllabus.The Complete Booklist for UPSC Civil Services Prelims Exam (Paper I)PolityIndian Polity by LaxmikanthEconomyIndian Economy by Ramesh SinghMrunal.org articlesMacroeconomics NCERT Class XII Indian Economic Development NCERT Class XI Economic Survey (Selective reading from Prelims perspective)The HinduInternet for understanding concepts (Arthapedia, Google, Youtube)Ancient History of IndiaMedieval History of IndiaOld NCERT by Satish Chandra (Selective Reading)Modern HistoryA Brief history of Modern India- Spectrum PublicationsIndia's Struggle for Independence Bipan Chandra (Selective Reading)NCERT by Bipan Chandra (For the period 1700s to 1857) Indian Art and CultureAn Introduction to Indian Art Class XI NCERTChapters related to culture in Ancient and Medieval India NCERTsCentre for Cultural Resource and Training (CCRT) MaterialHeritage Crafts: Living Craft Traditions of India -NCERT Environment and BiodiversityGeneral ScienceGeneral Science books IX and X standardThe Hindu (Note down and read about the latest scientific terms, discoveries and inventions frequently mentioned in news)Google and YouTube GeographyFundamentals of Physical Geography XI NCERTIndia: Physical Environment XI NCERTFundamentals of Human Geography XII NCERTIndia: People and Economy XII NCERTCertificate Physical and Human Geography: GC LeongPMFIAS (Excellent resource for understanding complex topics)Google and YouTube Govt Schemes A Govt schemes compilation by the website Civils DailyGeneral Trivia (Eg: Global groupings, Reports, Institutions, Rankings etc) Any coaching materialGoogleCurrent AffairsThe arocna onos inuclA .elracifilauq rep etneiciffus ais ehc onasnep e ednamod 06 olos onovlosir ehc enosrep 0tsiv oH .2 repaP TASC acric itnarucni eresse da onodnet)icitsirengegni sdarg eralocitrap ni(itnaripsa itlom .otnup a Å airomem al e atrella "Å ollevrec ortsov li ehc arucissa e isnes irtsov i Årinavoignir etton anoub anu id osopir II .Åtilauq id onnos id ero 8-7 erenetto id israrucissa ,emase'lled amirp onroig li oloS .erevlosir ad irtla arocna Åva is am ,ednamod enucla us eredrep ebbertop iS .eratnevaps non ,anaidni arutluc al e etra'l rep itapuccoerp eteis es oipmese dA .itrof Åip eera ellen eneb enoizucese'l noc erasnepmoc elibissop Å .eneb av ,otnemogra ocnu nu ni irevop eteis es ,idniuQ .ammargorp led etrap artla'llad etsop onnaras e etarbiliuge onnaras ednamod eL .elanif onroig led amirp etnemacidotem itnemogra ilg ittu eredevir id olleuq eresse ebervod ovitteibo ortsov II .otnemogra nu ni etanatnapmi eresse non ,enoisiver al etnaruD .omlac iatS .inroig 01 itseuq ni af is ehc enoisiver alled Åtilauq allad ednepid elaer emase'llen eugese is etnemecaciffe otnauQ .atulossa evaihc al "Å enoisiver aL .ottel Åig iveau ehc olleuq a otnemirefir iaF .irouf eraenilottos olos Åras is ,amirp ottel "Å is non ehc ovoun etnematepmoc elairetam li ereggel aizini is es ,emaseâl onodecerp ehc ilanif inroig ieN .emase'l eneb ereglovs a itratua rep itnemireggus inucla otallitsid oh ,azneirepse aim allaD .osrevid ore non oi ehcnA .ittut a edacca ehc e otnup otseuq a asovren' op nu eresse eneb av ehc adrociR .sniaM rep elanif oilgat li onnaraf es itaenilottos onos irtla ,eralocitrap otnemogra nu otinif arocna tanisacni Åsoc eresse non .opmet led amirp itunim 03 alas al onaicsal âivislupmi It is based on your votes, not on your audacity. Remember that only because the document qualifies, UPSC does not give you on a plate. This is the reason why they have constantly increased the level of difficulty in recent years. Then resolve CSAT with all the seeds and the intensity of the paper-1. During the resolution of the document, in the first iteration, it crosses all 100 questions in sequence and do three things: score those answers you are sure, around those questions you are uncertain or vaguely aware (for conjectures later) and cross Those questions that you absolutely have no idea. In the second iteration, come back again and try to answer those questions of which you are vaguely aware through educated conjectures or a deletion method. If you are not able to remember, do a side mark on the question and go ahead. Once back after solving the remaining questions, you are likely to remember. If we assume a moderately difficult document, then you will know with safety answers to about 50-60 questions. But you have to aim to try about 85-90 questions. This is the reason why educated conjectures are necessary and important. As you enter the exam room, no matter which books you may have read or how many times you may have reviewed. Cié who matters are those 100 questions. Put our emotions aside and solve those 100 questions with a focus like laser. Delete your fears, doubts and insecurities and remain positive and confident. Always believe and continue to tell you that you have worked hard and prepared well so far and that you will do well. On the last day, evoke your best ego and you will absolutely absorb the test. For further readings, you can check my article on UPSC GS Mains Preparab. Article on how to make educated hypotheses work in UPSC Prelimsso which was my list of books for UPSC Prelims.
